

Supporting students with care experience

What is care experience?

Anyone who has been or is currently in care or from a looked after background at any stage of their life, no matter how short. This care may have been provided in one of many different settings, such as in residential care, foster care, kinship care or looked after at home with a supervision requirement.

Find out what support is available to help students with care experience succeed at Heriot-Watt University

Heriot-Watt University is committed to offering the opportunity for university study to students from a diverse range of backgrounds who have the potential to succeed. We recognise that students with care experience may face obstacles to university participation and success, and we are committed to supporting students with care experience from the pre-application stage to graduation and beyond.

Support for students with care experience

- **Applying to University:** Where possible, the University aims to make an offer to any care experienced applicant who meets the minimum entry requirements for the course to which they have applied.

Students with care experience are also considered under Heriot-Watt University's Fair Access Policy.
